NATURAL PRODUCTS AND BIOPROSPECTING

（应用天然产物）

CONTENTS

Volume 16 Number 5 2026

REVIEW

61 Mechanistic insights into polyphenolic constituents from traditional Chinese medicines in inhibiting colorectal cancer metastasis
M.-H. Li · L. Liu

ORIGINAL ARTICLES

62 First total synthesis of (±)-spirobroussonin B via electromediated oxidative coupling for constructing spirodienone ring
H.-J. Shi · X.-P. Zhang · C.-X. Gao · K. Xie · W.-Y. Chen · M.-M. Li · K. Wang

63 New patchoulol- and guaiane-type sesquiterpenoids from *Sanguisorba officinalis* with anti-melanogenic activity
L.-L. Wu · J.-R. Wu · K.-X. Chen · L.-Q. Zhang · Y.-M. Li

64 Four new cyclohexenones with antibacterial activity from the coral-derived fungus *Aspergillus flavus*
C. Wang · J. Zhang · L. Li · S. Wang · K. Li · H. Hou · P. Li

REVIEW

65 Distribution and bioactivities of tirucallane-type triterpenoids from Meliaceae family
F.F. Abdullah · S.A. Putri · N.A. Najihah · Nurlelasari · W. Safriansyah · K. Awang · U. Supratman

ORIGINAL ARTICLE

66 Sesamol derivatives bearing a quinazolin moiety: synthesis, antifungal efficacy against tea plant pathogens, and mechanistic insights
H. Tang · S. Liu · F. Wang · C. Gao · L. Jin · D. Xie

REVIEW

67 Exploring the global mosaic of medicinal plant databases: unveiling nature's pharmacopoeia
Y. Jiang · X. Jia · Z. Yang

ORIGINAL ARTICLES

68 Elucidating therapeutic mechanisms of naringin and phloridzin on ulcerative colitis mice by metabolomics-based comparative analysis
J. Yang · C. Kang · C. Xiao · Y. Zhang · Y. Mai · Y. Huang · Y. Zhan · H. Liu · X. Wang

69 Rapid exploration of anti-MRSA components from plants of *Salvia*
H. Huang · Z.-J. Wang · L.-Y. Bai · Y.-M. Jiang · Y.-Y. Zhu · Y.-L. Zhao · X.-D. Luo

70 Oligosaccharides from *Polygonatum cyrtonema* Hua ameliorate colitis-induced lung injury via modulation of the gut-lung axis through NF-κB and Nrf2 pathways

J. Xu · C. Tang · Q. He · Y. Lu · P. Luo · J. Wu

REVIEW

71 Novel bioactive compounds from marine-derived endosymbiotic Penicillium fungi reported during 2020—2025
S.A. Omran · M.S. Elnaggar · F.S. Youssef · S.A. El-Moghazy

ORIGINAL ARTICLES

72 Metabolite diversification via halogen salts enhances biocontrol potential of marine-derived *Trichoderma virens* B211
M. Van Nguyen · Y.S. Kim · S.M. Ryu · J. Kwon · H. Kim · G.J. Choi · J.W. Han

73 Structural characterization, rheological properties, and skin bioactivities of a glucomannan from *Bletilla striata*
X. Li · Q. Gu · Q. Hu · T. Deng · L. Luo · J. Cai · X. Dong · C. Wu · M. Wu

REVIEWS

74 Maca polysaccharides: structural diversity, biological activities, and structure-activity relationships
X.-F. Zhao · Z.-W. Wu · X.-Q. Liu · M.-H. Qiu

75 Translational potential of medicinal plants for Alzheimer's disease: integrated evidence from molecular mechanisms to preclinical and clinical findings
S.N. Saikat · N.H. Siam

ORIGINAL ARTICLE

76 Huanglian-Wendan Decoction alleviates DSS-induced colitis by modulating the gut microbiota and protecting against intestinal injury via suppression of colonic apoptosis and endoplasmic reticulum stress
L. Li · X. Zhan · H. Ullah · W. Guo · P. Gui · W. Peng · Q. Mei · W. Dai · Y. Duan · X. Yuan · X. Hu

REVIEWS

77 The inhibition of pathological IgE in allergic diseases by natural compounds
M. Carnazza · M. Begley · R.K. Tiwari · J. Geliebter · N. Yang · J. Zhan · X.-M. Li

78 A review on natural enzyme inhibitors: an effective approach to control postprandial hyperglycemia in type II diabetes
F. Shirkhan · S. Mirdamadi · B. Akbari-adergani · H. Aryaee
